## The Ultimate Choice for Healthcare Professionals

**PROWA Medical Instruments** has been an accredited **medical instruments manufacturing factory** that has gained an enviable reputation for manufacture and supply of **Dental Instruments, Surgical Instruments, and Beauty Care Instruments** since 2011. We are fully engaged in manufacturing and exporting the finest quality instruments to over +50 countries that are handcrafted by a team of +250 highly qualified workers & seasoned sub-contractors, supporting us in our volume-based manufacturing.

Prowa Medical Instruments has been offering finest quality medical instruments to health facilities, medical professionals, healthcare tools & medical equipment distributors. The operations of the health care business are changing; hence the company is assisting in tackling the demands of this dynamic shift. Prowa Medical Instruments have comprehensive and global presence. The company's target markets are Europe, Middle East, Canada, America & Australia. The company have daily and formal exports to these regions. The international presence assists the progress of the company to firmly investigate and explore the western business trends that helps research and development team to modernize and revise the related product lines and departments.

To consolidate our position in medical instruments manufacturing industry, the company is committed to the continuous improvement and development of employees, products, technology and processes.

Our R&D department possesses a variety of modern machinery including CNC swiss-lathe, CNC engraving, CNC machining centres etc. for the development of our instruments.

We maintain world class machining centres to manufacturing a broad variety of the surgical instruments and implants. Our facility houses all departments in one site for quick and convenient contact within our organization.
